

EMPOWERED

DREAM IT. OWN IT. LIVE IT.

Sample Values List

- Your Values are what is important to you in life. Knowing your Values helps you understand what drives you – what you enjoy, are inspired by and would like more of. By **building a life and lifestyle around your values** you create a **life that is more satisfying and meaningful** to you.
- Values change over time and deepen as you understand yourself better – they are always moving. Your values can also be situational - so what is true for you at work may not be true for you at home.
- The Values List below is provided as ideas of example or sample values. Feel free to add your own words to the list below.
